

From Pain to Purpose

PRESENTED BY...

LAURA AND DAVE DIEHL

Author, Speaker

And Founders of GPS Hope

God's grace is often so much more than what we have been taught. His divine favor and empowerment will take the events of our past we had no control over (and the consequences of our failures) and turn them into stepping stones to become the powerful men and women of God He created us to be. God is never blindsided by the events in our lives like we are, and always has a plan to turn our place of suffering into a position of strength, and our pain into an incredible purpose and plan that is so much bigger than we could imagine. Award winning author, speaker and singer, Laura Diehl, will share how God has helped her do this after several tragedies in her life, including the death of her oldest daughter.
